Heritage Dog Application

A Heritage Dog Registration is designed for those White English Bulldogs with no known pedigree information. Because the White English Bulldog is a utility dog, quite often in the past there was very little interest shown in keeping pedigree information. A reliable, strong dog who was trustworthy with children and guarded the variety of farm animals that were around them was much more important. That same dog would have been used to create future generations of sound White English Bulldogs.

Still, to this day, there are families in the southern United States who keep just such a utility dog as a guardian and trusted companion. These are the White English Bulldogs who are considered Heritage Dogs to the Working White English Bulldog Association.

In order to have your dog approved for a Heritage Dog Registration, you will first need to complete this application in it's entirety, provide the requested photos and sign/date this form in the presence of a Notary Public. Once your information is received, the application will be approved or disapproved by the WWEBA. When a decision is reached, you will be notified via email or the US Postal Service.

In the event that your dog is approved for a Heritage Dog Registration, you must adhere to the following rule in regard to the breeding of that dog:
